Mark,

Army is asking for around 60 days extension (until August 15). Due to the potential of a substantial threat posed by this site, I am not in favor of providing this extension, not for 60 days.

What options do we have?

Any other thought?

Please advise.

Ben

As you can see, the Army wants to delay their response for the Explo 104(e) until August 15. I need your input before I respond.
